FOR TRAVEL AND
DELIVERY PURPOSES

MODEL No. 2

COMMERCIAL BOX SIDECAR

£3 : 9 : 0 (Body only, £1 : 6 : 6)

To any progressive tradesman we claim that this box is indispensable. It can be attached to any type of Standard or Carrier Cycle. The box is constructed of selected wood framework, sheet metal covered and finished as standard in dark green. The inside sizes are $22\frac{1}{2}$ " long \times 15" wide \times 15" deep with top opening and fastener provided. We can quote for boxes up to 12" longer than standard, but it is not practicable to increase either width or depth, also for any special finish or design in writing, which averages 3d. per letter.

MODEL No. 3

COMMERCIAL TRUCK SIDECAR

£3 : 2 : 6 (Body only, £1 : 0 : 0)

Most suitable for greengrocery or milk delivery, this smart truck is also invaluable for a wide variety of uses. Built of selected wood reinforced with iron supports and half boarded side, the inside sizes are $22\frac{1}{2}$ " \times 15" wide \times 15" deep. Standard finish is metal parts black, woodwork dark stained, and the sidecar is suitable for fitting to any type of cycle.

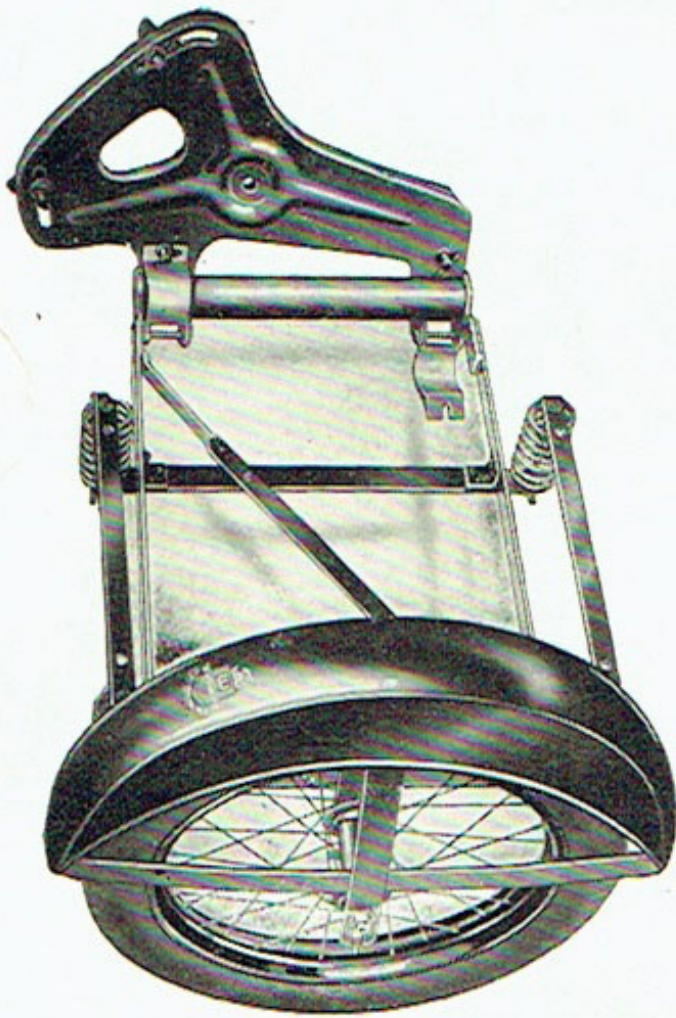

MODEL No. 9

LADDER CARRIER BOX

£3 : 16 : 6 (Body only, £1 : 14 : 0)

Specially designed to meet the needs of Municipal Corporations and Electric Supply Departments, also indispensable to the modern window cleaner, this commercial box has justified its inclusion in our leaflet. The aperture which is cut away on the nearside is $15\frac{1}{2}$ " deep \times $5\frac{1}{2}$ " wide inside, and suitable for carrying two ladders up to 9ft. in length. The remainder of the box is a separate compartment with lid and measures $28\frac{1}{2}$ " long \times 9" wide \times $16\frac{1}{2}$ " deep, finished as standard in green. Suitable for any cycle.

WATSONIAN

THE RENOWNED WATSONIAN CHASSIS

SIDECAR CHASSIS ONLY

(PATENT No. 447556)

£2 : 5 : 6

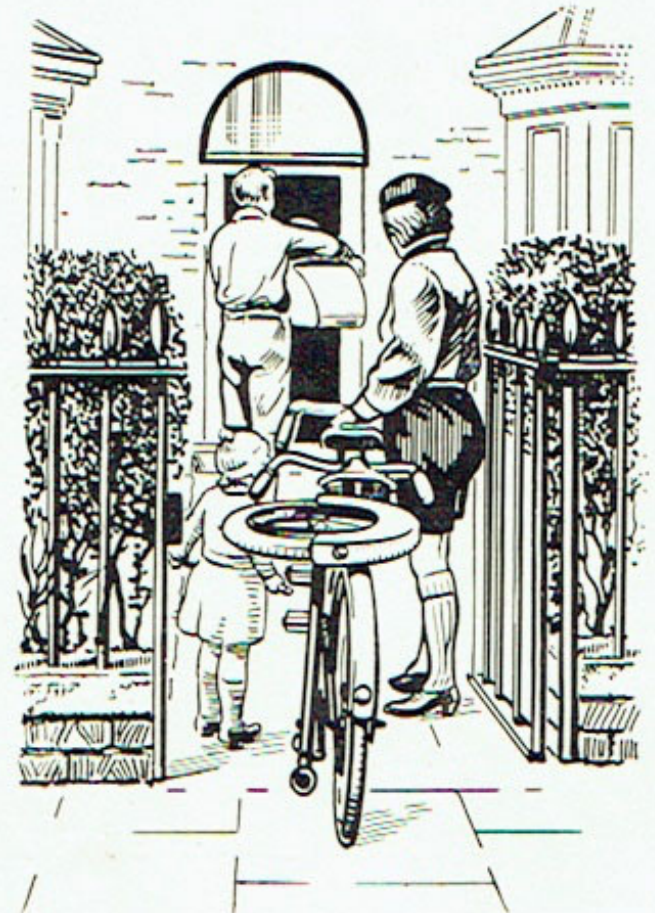

Robustly constructed yet light in weight, the Watsonian Cycle Sidecar attachment has proved its superiority over the other types of sidecars on the market to-day. The chassis with any of the models illustrated is suitable for fitting to any type of single or tandem machine, with the exception of sprint or special short wheel base models. Designed to carry loads up to 112 lbs. in weight, the sidecar is fitted with a 14" x 2" Carrier type tyre, which can be used at low pressure for light loads. The wheel is built into a standard cycle hub, mounted in a light cradle, and adjustable by location into slots to two positions to suit either 26" or 28" cycle wheels. A deeply valanced cream enamel mudguard, fitted with regulation reflector, covers both cradle and wheel.

WATSONIAN SPECIAL FEATURES :

- EXTRA STRONG, BUT LIGHT, ATTACHMENT PLATE
- FITS ANY STANDARD SINGLE OR TANDEM MACHINE
- LARGE METAL BEARING TO BANKING ACTION
- DEEP VALANCE CREAM MUDWING
- 14 x 2 in. CARRIER TYPE TYRE
- ELECTRIC BATTERY LAMP AND REFLECTOR
- RIGID WINDSCREEN AND SIDE CURTAINS
- PACKING CRATE AND CARRIAGE FREE

STORAGE PROBLEMS SOLVED

THERE is no storage problem with a WATSONIAN Cycle Sidecar. The space taken up by an ordinary cycle is all that is needed. Four nuts are slackened and the body detached, after which the sidecar wheel is folded over the rear wheel of the cycle. This operation takes only a few seconds and not only saves storage costs, but gives extraordinary mobility to the outfit in any conditions which may be encountered.

SIDECARS LTD., ALBION ROAD, GREET,

MODEL No. 4

PLATFORM SIDECAR

£2 : 10 : 0 (Body only, 7/6)

This platform attachment solves your problem, besides it is so much safer than over-burdening your cycle, with consequent bad balance and danger to yourself. Space does not permit us to describe the numerous advantages this economic attachment offers to any go-ahead tradesman, but its ability to carry practically any size packing case and camping equipment opens up great possibilities. Size of platform 24" x 15".

MODEL No. 7

SINGLE SEATER

£4 : 5 : 0 (Body only, £2 : 2 : 6)

A superbly streamlined new model with increased depth and longer hammock seat, suitable for the smallest child. The rigid windscreen and side-screens afford absolute security, and a weather-proof hood with ventilation window is provided. Safety straps and holding rail inside for the baby are standard; a roomy locker is included behind the seat. Distinctive two-colour fabric body finish, picked out in gold, is supplied. Cream top panels with red, green, or black sides, or alternatively all black, or all cream. Suitable for fitting to any cycle. Outside opening locker lid if required at 7/6 extra.

MODEL No. 8

TWO-SEATER SIDECAR

£5 : 3 : 3 (Body only, £3 : 0 : 9)

Further improvements in design assure absolute protection from draughts, sun or rain. A ventilator is fitted to the hood and can be opened or closed at will. The sidecar is designed to carry two children up to 2½ years of age, and is noted for its lightness and extremely generous specification. Safety straps are provided for both kiddies, and a small luggage compartment is to be found behind the rear seat. Optional colour specification as given for Model No. 7 above, make this sidecar an extremely attractive proposition.

Guarantee

THE following guarantee is given in place of any implied conditions, warranties or liabilities whatsoever, statutory or otherwise, all such implied conditions, warranties and liabilities being in all cases excluded. No statement or representation contained in our catalogue, or in any advertisement, leaflet or other publication shall be construed as enlarging or varying or over-riding this guarantee. In the case of Sidecars which have been used for "hiring out" purposes, or from which our trade mark, our name or manufacturing number has been removed, no guarantee of any kind is given or is to be implied.

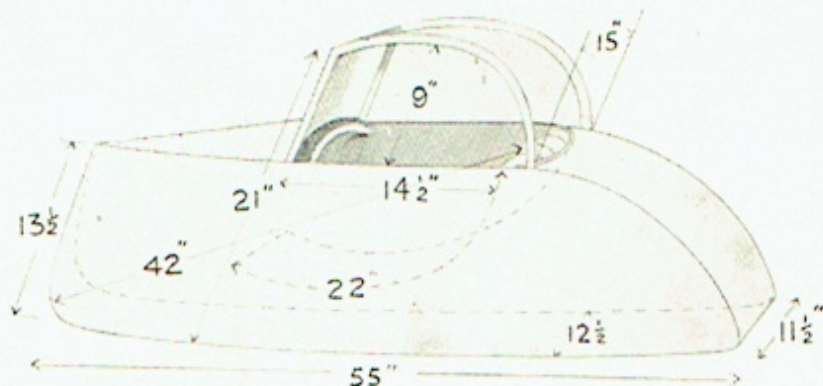

We guarantee, subject to the conditions mentioned below, that all precautions which are usual and reasonable have been taken by us to secure excellence of materials and workmanship, but this guarantee is to extend and be in force for six months only from the date of purchase, and damages for which we make ourselves responsible under this guarantee are limited to the free supply of a new part manufactured by us in exchange for the part of the Sidecar which may have proved defective. We do not undertake to replace or refix, or bear the cost of replacing or refixing, such new part in the Sidecar. We undertake subject to the conditions mentioned below, to make good at any time within six months any defects in these respects. As sidecars are easily liable to derangement by neglect or misuse, this guarantee does not apply to defects caused by wear and tear, misuse or neglect. The term "misuse" shall include, amongst others, the following acts:

- 1.—The attaching of a sidecar in such a manner as to cause damage, or calculated to render the latter unsafe when ridden.
- 2.—The use of a cycle and sidecar combined, when carrying more persons, or a greater weight, than that for which the Sidecar was designed by the manufacturers.
- 3.—The attaching of a sidecar to a cycle by any form of attachment, not provided or supplied by us.

CONDITIONS OF GUARANTEE.—If a defective part should be found in our sidecars it must be sent to us carriage paid, and accompanied by an intimation from the sender that he desires to have it repaired free of charge under our guarantee, and he must also furnish us at the same time with the number of the Chassis (which will be found stamped on the cross-bar), and the name of the dealer from whom he purchased, and the date of purchase.

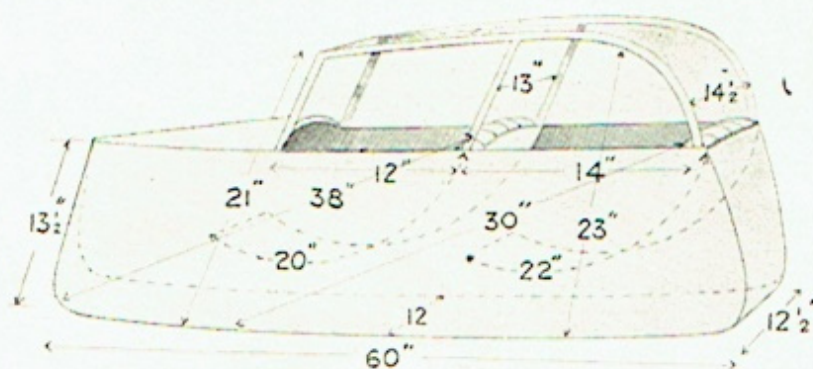

Failing compliance with the above, no notice will be taken of any thing which may arrive but such articles will lie here at the risk of the sender; and this guarantee, and any implied guarantee, shall not be enforceable. We do not guarantee specialities of other firms or any component parts supplied to the order of the customer differing from our standard specification.

We guarantee only those sidecars which are bought either direct from us or from a regional dealer or sub-dealer, and under no other conditions.

KIDDIE-CARRIER

AT last, a scientifically designed pillion seat! No more cushion-and-strap make-shifts, but a real seat, which will enable parents to carry a child on their journeys in comfort.

It has the great virtue of being **SAFE** and thus rids the rider of any anxiety. There is ample support for the back and plenty of leg room. For kiddies from 3 to 6 years of age of average size.

Streamlined, with smart lines, it will really enhance the appearance of any cycle, is easily fitted and detached in the matter of moments.

From a perilous adventure, the Kiddie-Carrier transforms any journey into a delightful experience for the child.

A Product of Watsonian enterprise and Craftsmanship

NOTE THIS SPECIFICATION:

An extremely comprehensive specification is included in this neat light seat, the weight of which is only $4\frac{1}{2}$ lbs. Attachment is made by two stays, to the rear wheel spindle and a single quick detachable clip to the seat pillar.

An upholstered seat assures comfort and the detachable apron fully protects the child from draught and rain. A safety strap is provided.

The bodywork is finished in Cream or Light Green and the leg shields are of highly polished aluminium.

Seat inside sizes:

Depth of back, 14"; Width of seat, 11 $\frac{1}{2}$ "; Depth of seat, 9"

The price inclusive of carriage and packing is **25/-**

The only Safe Pillion Seat for a Child
